Brief Course Description 课程简述 (中英文)									

The course is structured around two core parts: "Read Urban Texts" and "Read the Real City." The two parts are integrated through interim student presentations and facilitated discussions. By introducing and reading classic urban theory books and building on this foundation to observe real urban spaces, the course aims to equip architecture and urban design students with a comprehensive and systematic understanding of the physical environment, social structures, and political-economic dynamics of cities. Students will develop the ability to analyze and understand complex urban settings and advance spatial design interventions within them.

课程主要由：阅读经典城市文本（read urban texts）和阅读真实的城市空间（read the real city），这两个板块组成，中间穿插了课程汇报和讨论进行衔接。通过对经典城市理论著作的介绍和阅读，并在此基础上展开对真实城市空间的观察，本课程将帮助建筑学和城市设计专业的学生从更全面、系统的视角理解城市的物质空间、社会结构和政治经济驱动力，使学生具备分析理解真实、复杂的城市环境，并在其中展开进一步空间设计的能力。
