Re: 2019 KPF Traveling Fellowship

Dear Mr. Li,

KPF

The winners of the 2018 KPF Traveling Fellowship have returned from their adventures. We have received some impressive portfolios documenting their trips. Each one has expressed how much the trip has enriched their education and we are very pleased we could support them.

It is now time to turn our attention to the 2019 Fellowship. The format is broadly in line with that of last year. Exact details of the fellowship are put forward in the accompanying notice. Portfolios are due in our New York studio on Friday, April 5, 2019.

Each school is invited to submit two portfolios. Schools are encouraged to conduct internal competitions to select finalists, as this has proved to be an effective mechanism to deliver the best quality candidates.

Each submitted portfolio should include the Dean's authorization as well as a statement signed by the applicant granting permission for KPF to use images from their portfolio and subsequent travel report on the KPF websites. These signatures should be attached to the student's proposed travel itinerary.

We enclose a poster publicizing the fellowship and ask that you post it in an appropriate place in the school. Do let us know if you would like additional copies.

We thank you for encouraging your students to submit for the fellowship last year and we trust that this year's submissions will be just as exciting.

Yours sincerely,

James von Klemperer, FAIA, RIBA
President
