Vertical Garden City: Planning, Design and Technology

课程简述：

本课程由主讲教授授课、特邀讲座、实地调研及学生汇报四个模块组成，其中包含 4 个特邀讲座和 2 次实地调研。重点从立体园林的历史发展、规划、设计、工程运维等多角度展开介绍，形成完整的理论体系。结合上海本地立体园林行业资源，建立多元化的教学模式。

Brief Description:

This course is divided into four parts: Lectures, Guest Lectures, Field Trips and Student Presentations, including four guest lectures and two field trips especially.

This course focuses on the historical development, planning, design, and engineering operation and maintenance of vertical greenery from multiple perspectives, and forms a complete theoretical system. Combined with the local vertical greenery industry resources in Shanghai, a diversified teaching model will be established.
